### Task:

1. Open the World Cup Science Challenge Task Sheet in resources below.
2. On page 1 are all of the countries that took part in the World Cup.
3. On pages 2 to 5 are scientific facts, phenomena about those countries or the people who live in them.
4. Print out page 1.
5. For each country write the number of the card (on pages 2 to 5) which matches.
6. On each of the cards (on pages 2 to 5) there is a question.
7. Select 3 and write an answer for each of them.
