

## Design and Technology Homework Task

<b>Subject</b>	Textiles technology	
<b>Module Title</b>	Kids and Co Hats	
<b>Year Group - 7</b>	<b>Term - Autumn</b>	
<p><b>Context of the task</b>            This homework comes at the end of a project on hat making. It is to give pupils the opportunity to use their imagination to design and make a hat made from recycled materials. The teacher will discuss the task during a lesson, prompting the pupils to outline the materials that can be recycled and the importance of recycling.</p>		
<p><b>Objective of the Task</b></p> <ul style="list-style-type: none"> <li>• To know the materials that can be recycled</li> <li>• To appreciate the importance of recycling.</li> <li>• To be able to develop an attractive and functional hat using recycled materials</li> </ul>		
<p><b>Outline of the task</b>            In this task you must be as imaginative as possible. You are to produce an attractive and functional hat using recyclable materials. The traditional items for recycling would be newspapers, tins, glass, paper and cardboard. However you may discover other items that can be used.            The hat must be suitable for you to wear, as you will be expected to model it at the end of module fashion show.</p>		
<p><b>Expectations/Timing</b>            2 homework sessions</p>		
<p><b>Suggested Resources</b>            Recyclable items - newspapers, tins, glass, paper, cardboard.            Examples on the notice board in the classroom.
