

Science Homework on the Network

Term	Autumn
-------------	--------

Year group	7
-------------------	---

How this fits into your learning:

To discover the brain's 'love locations', look at the brain as an organ and remind yourself about respiration.

Objective:

To know that certain parts of the brain are active in love
To describe the brain as an organ and as a collection of cells that respire

How this will be assessed

teacher

self

peer

Task:

1. Open the Love on the Brain Task Sheet in resources below.
2. Read the information about the brain on page 1 and 2
3. Print out the Valentine's card on page 3
4. Fold it into half and fold again
5. Put an image and slogan at the front
6. Write some interesting facts or explanations inside

Resources: Love in the Brain Task Sheet

Example/Model:

Check your level: N/A
