|-------------|--------|
| <b>Term</b> | Autumn |
|-------------|--------|

|                   |   |
|-------------------|---|
| <b>Year group</b> | 7 |
|-------------------|---|

### How this fits into your learning:

Science is a subject that effects everyone. You need to be aware of the scientific breakthroughs that are currently happening and how they are reported to the public.

### Objective:

To summarise the content of a scientific article..  
To evaluate the content, the source of the information and how it is presented.

### How this will be assessed

|         |
|---------|
| teacher |
|---------|

|      |
|------|
| self |
|------|

|      |
|------|
| peer |
|------|

### Task:

Cut out an article about something scientific from a newspaper or magazine or from the internet.

Stick it into your book.

Underneath write approx 50-70 words summarising what the article is about and who it effects.

Explain in 20-30 words who would be interested/concerned about the information in the article and why they would be.

Suggest whether the article and the authors/people quoted are biased or unbiased, if you can.

Finish by giving your opinion about whether you believe the article.
